The Details: Rapid Rabbit & Speedy Dialer

"Speedy Dialer and I can save precious time for anyone who has to make routine calls to inform, remind, or alert people with your pre-recorded message."

What is *Speedy Dialer* hardware?

Speedy Dialer is a computerized telephone dialer (external hardware device) that plugs into the back of your computer (into the serial or USB port). It is NOT a voice modem; *Speedy Dialer* is a sophisticated single line device that includes a built-in telephone. *Speedy Dialer* allows you to make telephone calls much faster and more efficiently than using voice modems or dialing by hand; therefore, you can make many more calls per hour.

What is *Rapid Rabbit* Auto Dialer software?

Rapid Rabbit software is outbound telephone calling software that uses *Speedy Dialer* to make calls to deliver your pre-recorded messages. If a live person answers, it will deliver your message rapidly. If an answering machine answers, it will wait until the greeting has played, then deliver your message. If there is no answer or the phone is busy, it will try again.

Rapid Rabbit is fast and easy:

1. Select **WHO** you want to call (either type in one telephone number to call or select one of your lists of telephone numbers to call).
2. Select **WHAT** * message you want (either record a new message or select one of your pre-recorded messages).
3. Select **WHEN** you want to start calling (either select "call now" or set a timer to start at a certain time).
4. **View** the calls as they are made or **print** a report of the results when calling has been completed.

* Your messages may be recorded for any time length you need. In addition, after each message, you can choose to use any of the following "Ending Messages":

Ending Message #1: "To repeat this message, press 1."

Ending Message #2: "To confirm that you have received this message, press 2."

Ending Message #9: "If we have called the wrong number or you do not want to be called again, press 9."

The above messages have been pre-recorded, but they may be changed as needed. For example, you could re-record Ending Message #2 as follows: "If you want someone to call you, press 2."

Note: This product does NOT include a Do Not Call "scrubber". If you intend to use this for telemarketing, we highly recommend that you only use telephone lists that have already been "scrubbed".

Examples of *Rapid Rabbit* Calls

CHURCH: "Hello, this Youth Pastor Phil Jones, with Maple Street Community Church. I'm calling to remind you that we're having a pizza party and movie at the church Friday night at 8 o'clock. You're welcome to bring friends between the ages of 13 and 18. to repeat this message, press 1, to confirm that you received this message, press 2, or if we have called the wrong number or you do not want to be called again, press 9."

CLUB: "Hello, this is the Oakdale Lion's Club calling to inform you that our beloved member, John Smith, has passed away. Services will be held on Saturday at 10 am at the Johnson Street Funeral Home. To repeat this message, press 1."

SCHOOL: "Hello, this is Johnson Middle School calling to inform you that your child has not arrived at school today. Please contact our office at 976-445-4545. To repeat this message, press 1 or to confirm that you received this message, press 2."

TEAM: "Hi, this is Coach Joe Morgan. I am sorry, but soccer practice has been cancelled due to the heavy rain. I'll call you later this week with a new practice day and time. To repeat this message, press 1."

MEDICAL: "Hello, this is Dr. Smith's office calling to remind you about your dental appointment tomorrow. To confirm that you received this message, press 1, to repeat this message, press 2, if you do not want to be called again, press 9, or to contact us, call 972-7414"

PHARMACY: "Hello, this is the Walgreen's Pharmacy calling to let you know that your prescription is ready for pickup at 4455 Preston Road. Our hours are 8 am to 8 pm every day. To repeat this message, press 1."

AUTO DEALER: "Hello, this is the Oakdale Chevrolet service department. Your vehicle is now ready for pickup. Our hours are 7 am to 7 pm, everyday except we are closed on Sundays. To repeat this message, press 1 or you may call us at 874-5252."

DRY CLEANERS: "Hello, this is Super Dry Cleaners at 676 Frankford Road. We're calling to remind you that you have not picked up your clothes yet. We're open from 6 am to 6 pm, Monday through Saturday. We are not responsible for any clothes left over 30 days. To repeat this message, press 1, to confirm that you received this message, press 2, or if we have called the wrong number or you do not want to be called again, press 9."

Other Products:

Multi-Line Auto Dialer: If you need a larger, full featured dialer that automatically calls on 2 to 96 telephone lines and delivers pre-recorded messages to live answers and to answering machines, see our "Octopus Auto Dialer Express" (using Dialogic voice boards) at: www.evs7.com.

...Or...

Cheetah Power Dialer: If you need to call lists of telephone numbers to speak live to people and/or leave messages, see this Speedy Dialer product at: www.evs7.com or www.speedydialer.com.

...Or...

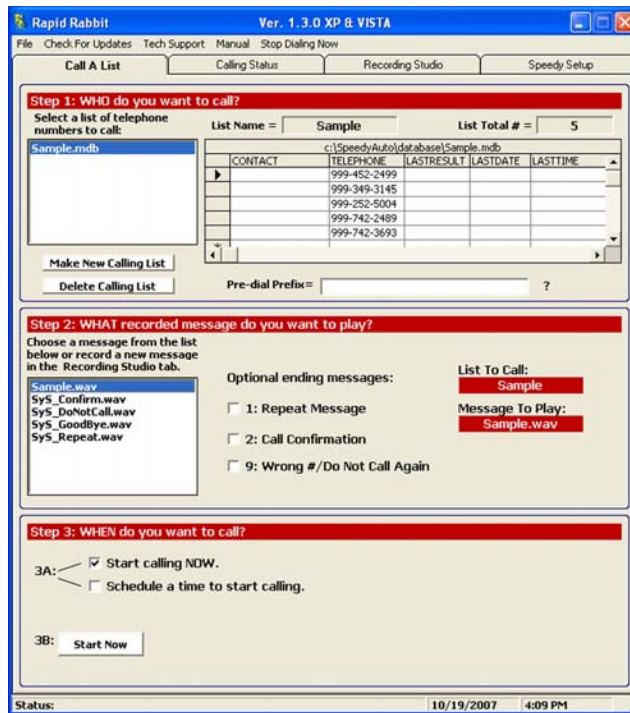

Spider Web Dialer: If you need to call customers on your Web based CRM data base, see this Speedy Dialer product at: www.evs7.com or www.speedydialer.com.

...Or...

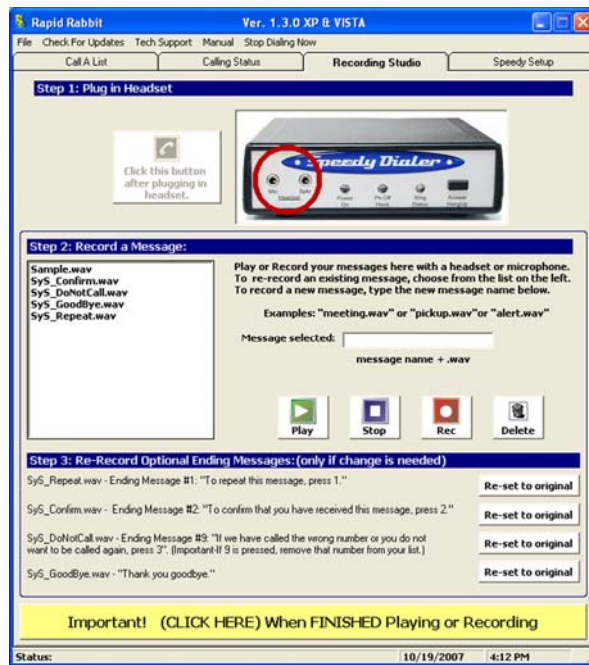

Predictive Dialer: If you need a more sophisticated dialer that calls telephone lists and only connects your agents to live answers, see our 1 to 24 agent "Piranha Predictive Dialer" at: www.evs7.com.

Designed & Manufactured in the USA  Dimensions: Width 5" x Length 5" x Height 1.5"

Rapid Rabbit Auto Dialer Software on CD

Warranty: Speedy Dialer & Rapid Rabbit are covered by a one year warranty. Technical Support is included: 1 hours or 1 year (whichever comes first).

Accessories also included:

PC Headset with microphone *
USB to Serial Port Cable
Telephone Cable
Audio Cables
Power Transformer *

* We use Plantronics headsets/microphones-your choice of monaural (1 ear) or binaural (both ears).

** Included **transformers** are designed and approved for use in USA & Canada; users in other countries will need a wall plug transformer that can provide an output voltage of 9 to 12 volts DC at a minimum of 200 milliamps current to the Speedy Dialer DC power input jack. The wall plug transformer input voltage and frequency must match the voltage and frequency of the local wall plug being used. The wrong transformer will damage the Speedy Dialer.

Accessories are covered by a 30 warranty.

Tool Kit

"Design your own applications."

-  A free Tool Kit is available for developers and programmers who wish to design their own applications using our *Speedy Dialer* external telephony boards.
-  *Speedy Dialer* does not use TAPI.
-  Applications can operate on Microsoft Windows 98, NT, 2000, XP, Vista, and also on Linux.
-  Custom design work and web hosting/managing are also available.

What You Need To Supply

- 1) **Telephone Line:** One standard business or residential analog telephone line. (We do not recommend VoIP service due to inferior quality, which can result in poor detection of live vs. answering machine detection.)
- 2) **Computer:**

If you provide a computer:

Operating System: Windows XP Home or Pro or Vista Home Premium, Business, or Ultimate, or Windows 7 (Windows 32-bit is required; does NOT work with 64 bit)

Minimum System Requirements: 1 GHZ processor, 512 Megs of RAM, 10 MB of available hard drive space, Super VGA Monitor, Keyboard, Mouse, Sound Card, and available Serial or USB port

Surge Protector & Battery Backup: To protect your hardware, software, and data.

Dedicated Use: While dialing, your computer should only be used for the Speedy Dialer product.

Recommended: High Speed Internet connection,

If you purchase our computer:

Prices, appearance, and specifications are subject to change. Specifications for Hard Drive capacity, amount of RAM, & CPU are the minimum the PC will have. Due to availability of components your hard drive might be larger, and you might have more RAM or a faster processor.

* **EXPRESS ONE YEAR LIMITED WARRANTY:** Manufacturer warrants that its hardware and software will be free of any significant defects for one year from purchase date. (There is no warranty on accessories such as headsets and cables). Manufacturer will repair or replace damaged or malfunctioning products at no charge, if within the warranty time limit and if there has been no damage by accidents, lightning or power surges, or misuse or abuse by the Buyer/User. Buyer must return any defective hardware prior to Manufacturer's shipping a replacement or Buyer must give a credit card number authorizing a charge until the defective hardware is returned to Manufacturer. Buyer/User and Manufacturer will each pay the shipping costs of returning any items to each other for repair or replacement. THERE ARE NO WARRANTIES THAT ARE NOT INCLUDED HERE.

* **TECHNICAL SUPPORT:** To begin using Technical Support, Buyer/User must first REGISTER at www.tellacom.net. One Hour or One Year (whichever comes first) of Technical Support is included with the purchase price for the original Buyer/User. Additional Technical Support may be purchased for \$50. Technical Support includes helping User install and learn how to use this software and hardware. Technical Support does not include teaching the User how to use a computer or how to use other vendors' software such as Windows or databases, or how to use telephone systems or network computers. Technical Support can explain to the User how to import and manage User's telephone number lists and Do Not Call lists, but Technical Support cannot actually edit or modify User's lists for him/her. If User does not have basic computer skills, a professional should be hired to contact Technical Support for installation and training. Technical Support hours are 9 am to 6 pm (US Central Time Zone), Monday through Friday, except for holidays. User may at any time leave VOICE MESSAGES or send E-mails with questions. Technical Support will make every reasonable effort to resolve questions and problems on a timely basis, within the times listed above; however, Technical Support may not always be able to resolve every problem, nor respond to every call immediately.

* **SOFTWARE & MANUAL UPDATES:** After the initial purchase, updates to the Software and Manual are available free of charge if Buyer obtains them from Manufacturer's Technical Support Web Site. A new copy of the Software on a CD is \$20 and a printed hard copy of the Manual is \$20. These prices include shipping by US Post Office. Overnight shipping is an additional \$10 in the USA.

* **RETURN POLICY:** Buyer can examine this product online before purchasing. After purchasing this product, from the date the product is delivered, Buyer will have a maximum of 14 days to return it, in good condition, to EVS for a full refund, less 15% restocking fee and any shipping charges. There will be no refunds in the event that Buyer's phone service provider changes their features, prices, or policies, or if there are any changes in laws affecting the use of this product.

Please carefully read and sign the following "Liability & Responsibility".

Liability & Responsibility

The Seller and Manufacturer strive to provide the Buyer/User with the highest quality software and hardware; however, there are a number of factors that can cause system malfunctions including, but not limited to, operator error, software corruption, software bugs, telephone line problems, electrical surges, hardware defects, and computer failures. The Seller and Manufacturer and its Technicians cannot be responsible if the Buyer/User adds other software or hardware that corrupt the system or for any other malfunctions.

The Buyer/User is responsible for making frequent backups of his or her system to protect against any loss of valuable data. The Seller and Manufacturer and its Technicians cannot be responsible for loss of data for any reason whatsoever. The Seller or Manufacturer will not be liable for any lost revenue, lost profits, penalties, fines, legal judgments, or other expenses due to loss of data, hardware or software problems, or for any other reason.

This product has the capability of being operated in various ways and for various uses. The Buyer/User assumes all liability and responsibility for only operating this product legally, according to federal, state, and/or local laws. Laws are complex and may change from time to time, and laws vary from country to country and from state to state. A violation of any such laws could result in significant penalties and other sanctions. Prior to buying or using this product, the Buyer/User should consult with an attorney to determine the extent of permissible activities. The Seller and the Manufacturer and its Technicians and Representatives are not attorneys; therefore, any interpretations of laws regarding the use of this product should not be completely relied upon. It is your responsibility to determine specifically what is legally required for your operation and to therefore use this product in a manner that will comply with any such laws. After purchasing this product, a refund is not available if any laws are later changed affecting the use of this product.

Note: Informational calls (not attempting to sell goods or services) are not subject to various laws regulating Telemarketing calls. A summary of some of those laws relating to Telemarketing calls is described in the section below:

TELEMARKETERS BEWARE: If the Buyer/User intends to use any outbound dialing products (auto dialer, power dialer, predictive dialer, or fax broadcaster) for solicitation purposes (selling goods or services), there are laws or rules including, but not limited to, the following:

Do Not Call: The Buyer/User should be aware that he or she may be responsible for monthly "scrubbing" of calling lists against Federal and/or State Do Not Call Registry lists. (The Manufacturer of this product provides the Buyer/User with tools to assist in cleaning the Buyer/User's dialing lists of Do Not Call telephone numbers if required; however, the Manufacturer cannot guarantee 100% integrity or reliability of these tools.)

Cell Phones: It is not legal to call cell phones to attempt to sell goods or services with either a pre-recorded message or with live agents.

Auto Dialing (calling to leave pre-recorded messages): Effective December 1, 2008, per the US Federal Trade Commission, in the beginning of the pre-recorded message, an automated key press must be available so that consumers can opt out of the call as easily as they can from a live telemarketing call. If a message is left on an answering machine or voice mail, a toll free number must be provided for the recipient to call to opt out of any future calls. Effective September 1, 2009, per the US Federal Trade Commission, telemarketers cannot call people with a pre-recorded message to sell goods or services, unless they have prior written (or electronic) permission from the recipient of each call, regardless of whether it is answered live or by an answering machine or voice mail. Having a previous business relationship will no longer be sufficient. The following are exempt from the prior written permission requirement: informational calls, political calls, charitable solicitation calls, and healthcare related calls that are subject to HIPPA.

By using this product, the Buyer/User accepts 100% of the responsibility and liability regarding its use and will hold the Seller and the Manufacturer and its Technicians and Representatives completely harmless from any fines, penalties, litigation, expenses, or claims for any reason.
