

Falcon Telephone Notification System

Quickly and automatically dials telephone numbers to deliver emergency messages or other important information.

Works with 1 to 150 telephone lines.
Delivers up to 2 calls per minute per line.
With 150 lines, you'll get up to 300 calls per minute.
(Number of calls depends on number of line & length of your message.)

Designed to alert, warn, or inform about...
Important Information * Natural Disasters * Man-Made Emergencies

By owning Falcon Telephone Notification System (with answering machine detection), you'll have a very fast way to deliver repetitious information by automatically calling phone numbers to alert, warn, or inform people before or after important events or catastrophes.
(Note: This product is **not** designed for telemarketers; see our Octopus Auto Dialer instead.)

Designed for...
**Businesses * Government Agencies * Hospitals * Military
Schools * Churches * Clubs * Unions * Organizations * Utilities
Political Campaigns * Home Owners' Associations**

If you need **SPEED** and **SIMPLICITY**, then Falcon Telephone Notification System is for you!

To operate a Falcon Telephone Notification System, you will need:
1) our Software, 2) a Dialogic or PIKA Voice Board, and 3) a Computer.

For detailed pricing of software, voice boards, & computers,
please see "Prices & Ordering" in this brochure.

* Lease to Own Explanation: Contact Greg Cross – Tel: 972-782-7367 or Email: greg.cross@trinitycorporate.com
Lease Terms: Above monthly payments are approximations and are based on 36 months with \$1 buy-out option at the end of your lease.
Other available terms: 24, 48, or 60 months.
All leases are subject to credit approval and vary depending on credit worthiness.
Actual payments are subject to corporate structure or customer credit rating.

Falcon Telephone Notification System Features

The Falcon is the fastest moving creature on earth. It can fly up to 200 miles per hour. Likewise, we have designed this system to be the fastest auto dialer available.

When you have an emergency or important information, you don't have time to fool around! This system is extremely simple and fast to activate, plus it calls as fast as possible.

Examples of Uses

*** IMPORTANT INFORMATION ***

Political-Voting, Meeting & Event Reminders, Closures, Power Outages, Disease Prevention

*** NATURAL DISASTERS ***

Fires, Tornadoes, Hurricanes, Earthquakes, Volcanic Eruptions, Tsunamis, Floods, Epidemics

*** MAN-MADE EMERGENCIES ***

Terrorists Attacks, Bombs, Explosions, Nuclear Disasters, Chemical & Oil Spills, Biological Warfare, Crime, Snipers, Prison Breaks, Missing Persons, Amber Alerts

Three Fast Ways to Activate the Telephone Notification System

1) Onsite Computer Activation

Steps at the computer:

- 1) Click the list(s) you want to call
- 2) Record your message or click one of your pre-recorded messages
- 3) Click "Dial Now" or set a timer to begin the calls at a certain time

2) Remote Telephone Activation (call in from anywhere in the world)

Steps on the telephone:

- 1) Call your system
- 2) Enter your pass code on your touchtone phone
- 3) Press 1 to activate your default calling list and message or...
- 4) Press 2 to select the lists to call and record the message to play
- 5) Press a key to begin calling

3) Web Activation (from any computer in the world)

Steps on the internet:

- 1) Using a computer, use a remote program such as "GoToMyPC"
- 2) Log in to your Auto Dialer computer
- 3) Click the list(s) you want to call
- 4) Record your message or click one of your pre-recorded messages
- 5) Click "Start" or set a timer to begin the calls at a certain time

Start

Set Time to Stop Dialing
03/23/2008 07:22 PM

Dialing Elapsed Time = 764 Auto dialer manually stopped. 3/23/2008 7:40 PM

Other Features

- * You can “stack” up to 5 lists to be called one after the other, in the priority you need. Each list can deliver a different message.
- * If you choose, after your message to live answers, the person called can be told “To repeat this message, press 1” and “To confirm that you have received this message, press 3”.
- * The system has “answering machine detection”. If a “live person” answers the call, your message will play right away. If an answering machine or voice mail answers the call, your message will be played after their greeting.
- * The system can retry “no answers”, “busy signals”, and “operator intercepts” (SIT tones).
- * The results of each call are shown on the screen and can be printed in a report.

Note: This product is NOT designed for telemarketing, and therefore does not have “Do Not Call scrubbing” ability. If your application is subject to “Do Not Call” laws, your telephone lists must be “pre-scrubbed”.

Telephone Numbers To Dial

The system will allow you to import lists of telephone numbers with names and other data, or you may enter that information directly. The system allows many different lists of phone numbers to reside within the system at the same time. Just click on the list you want to call.

Recording Your Messages

You may record your messages by microphone or telephone. Your recordings may be any length needed. Recordings are stored on your computer’s hard drive as “.wav” files. You may store many pre-recorded messages to use at any time, and you may name them any name you choose. A recording microphone headset is included with the system.

If you want speed, simplicity, and reliability, you'll find that Falcon Telephone Notification System is the right choice. EVS has been designing and selling telephony products since 1993, with many thousands of customers. We stand behind all of our products. We won't disappoint you!

Why Own Rather Than Contract With A Hosted System?

Owning Falcon Telephone Notification System gives you control over your situation, especially when it comes to emergencies. Do you really want to put all of your trust in a company that could go out of business, could be hacked into, or that may not have enough calling capacity just when you need it the most?

Need More Advanced Features?

If your application requires more advanced features, please check out our OCTOPUS Xtreme Auto Dialer. It works similar to Falcon Telephone Notification System, except it has the following additional features: Live Call Transfers, Voice Mail, Do Not Call Scrubbing, Touchtone & Voice Surveys, and Text-to-Speech. For details, please visit: <http://www.evs7.com>.

Telephone Service

One or more standard ANALOG telephone lines (business or residential) or DIGITAL T1-PRI or E1 lines may be used. Important note: If Buyer/User intends to use the live call transfer feature, or if Buyer/User intends to use DIGITAL lines (24 or more lines), please go to our Technical Support web site: www.tellacom.net and click on "Telephone Requirements" for the details needed to properly order telephone service from your telephone company.

Computer

If you provide a computer:

Computer Requirements:

Operating System: *Windows XP Pro.*

Minimum System Requirements: 1.5 GHz processor, 1 GB of RAM, 40 MB of available hard drive space, Super VGA Monitor, Keyboard, Mouse, and Sound Card. Note: You may need higher speed and more RAM if you have large telephone lists and/or many telephone lines.

PCI or ISA Slot for Voice Board: New PIKA or Dialogic boards fit in either 5 or 3.3 volt PCI slots. The boards are 4.5" high and either 7" or 13" long, depending on the model. Used Dialogic boards use either ISA or PCI slots, depending on the model. More than 1 slot may be needed. Note: Certain Dialogic boards do not support call transfers. (Contact sales if you need more information.)

Surge Protector & Battery Backup: To protect your hardware, software, and data.

Dedicated Use: While dialing, your computer should only be used for the Telephone Notification System.

Recommended: High Speed Internet connection, and to not interfere with performance of the dialer, we recommend that the following are turned off: screen savers, power management, automatic Windows updates, security firewalls, and anti-virus software.

If you purchase our computer:

Buy any of our software and/or voice boards and installation into the computer is free.

You will need our Software, Voice Board, and a Computer to operate this product.

1) Software: (includes 3 hours of technical support)

Instructions: Circle the # of telephone lines you want below.

|  | Max. # of Phone Lines | Prices | Max. # of Phone Lines | Prices |
|---|-----------------------|---------|-----------------------|---------|
| | 4 | \$550 | 60 | \$2,800 |
| | 8 | \$700 | 72 | \$3,200 |
| | 12 | \$850 | 84 | \$3,600 |
| | 16 | \$1,000 | 96 | \$4,000 |
| | 24 | \$1,400 | 120 | \$4,800 |
| | 36 | \$1,800 | 144 | \$5,600 |
| | 48 | \$2,400 | 150 | \$5,900 |

2) Voice Boards: (either PIKA or Dialogic brands)

Instructions: In the yellow boxes, choose which board(s) you want, then multiply times the price per board.

You may install multiple boards in a computer to achieve the desired number of telephone lines.

Call us if you need assistance choosing the type of Voice Board you need.

We recommend PIKA, rather than Dialogic, due to ease of installation, performance, reliability, and cost.

| Max. # Tel. Lines | Type of Tel. Lines | New Voice Boards Brands & Models | Price per Voice Board | Quantity of Voice Boards | Voice Board Cost |
|------------------------|--------------------|----------------------------------|-----------------------|--------------------------|------------------|
| PIKA brand: | | | | | |
| 4 | Analog | PIKA Inline MM 4L | \$449 | x = | \$ |
| 4 | Analog | PIKA Daytona MM 4LC | \$649 | x = | \$ |
| 8 | Analog | PIKA Daytona MM 8LC | \$1,600 | x = | \$ |

* **EXPRESS ONE YEAR LIMITED WARRANTY:** Manufacturer warrants that its hardware and software will be free of any significant defects for one year from purchase date. (There is no warranty on accessories such as headsets and cables). Manufacturer will repair or replace damaged or malfunctioning products at no charge, if within the warranty time limit and if there has been no damage by accidents, lightning or power surges, or misuse or abuse by the Buyer/User. Buyer must return any defective hardware prior to Manufacturer's shipping a replacement or Buyer must give a credit card number authorizing a charge until the defective hardware is returned to Manufacturer. Buyer/User and Manufacturer will each pay the shipping costs of returning any items to each other for repair or replacement. THERE ARE NO WARRANTIES THAT ARE NOT INCLUDED HERE.

* **TECHNICAL SUPPORT:** To begin using Technical Support, Buyer/User must first REGISTER at www.tellacom.net. Three Hours or One Year (whichever comes first) of Technical Support is included with the purchase price for the original Buyer/User. Additional Technical Support may be purchased for \$50 per hour. Technical Support includes helping User install and learn how to use this software and hardware. Technical Support does not include teaching the User how to use a computer or how to use other vendors' software such as Windows or databases, or how to use telephone systems or network computers. Technical Support can explain to the User how to import and manage User's telephone number lists and Do Not Call lists, but Technical Support cannot actually edit or modify User's lists for him/her. If User does not have basic computer skills, a professional should be hired to contact Technical Support for installation and training. Technical Support hours are 9 am to 6 pm (US Central Time Zone), Monday through Friday, except for holidays. User may at any time leave VOICE MESSAGES or send E-mails with questions. Technical Support will make every reasonable effort to resolve questions and problems on a timely basis, within the times listed above; however, Technical Support may not always be able to resolve every problem, nor respond to every call immediately.

* **SOFTWARE & MANUAL UPDATES:** After the initial purchase, updates to the Software and Manual are available free of charge if Buyer obtains them from Manufacturer's Technical Support Web Site. A new copy of the Software on a CD is \$20 and a printed hard copy of the Manual is \$20. These prices include shipping by US Post Office. Overnight shipping is an additional \$10 in the USA.

* **RETURN POLICY:** Buyer will receive a full refund of the purchase price, less shipping and 15% restocking charge, if everything purchased is returned within 30 days from purchase date. The products must be returned to Seller in the original packing containers and all components must be in good condition. No refunds are available for custom programming or custom voice recordings. After purchasing this product, a refund is not available if any laws are later changed affecting the use of this product.

Liability & Responsibility

The Seller and Manufacturer strive to provide the Buyer/User with the highest quality software and hardware; however, there are a number of factors that can cause system malfunctions including, but not limited to, operator error, software corruption, software bugs, telephone line problems, electrical surges, hardware defects, and computer failures. The Seller and Manufacturer and its Technicians cannot be responsible if the Buyer/User adds other software or hardware that corrupt the system or for any other malfunctions.

The Buyer/User is responsible for making frequent backups of his or her system to protect against any loss of valuable data. The Seller and Manufacturer and its Technicians cannot be responsible for loss of data for any reason whatsoever. The Seller or Manufacturer will not be liable for any lost revenue, lost profits, penalties, fines, legal judgments, or other expenses due to loss of data, hardware or software problems, or for any other reason.

This product has the capability of being operated in various ways and for various uses. The Buyer/User assumes all liability and responsibility for only operating this product legally, according to federal, state, and/or local laws. Laws are complex and may change from time to time, and laws vary from country to country and from state to state. A violation of any such laws could result in significant penalties and other sanctions. Prior to buying or using this product, the Buyer/User should consult with an attorney to determine the extent of permissible activities. The Seller and the Manufacturer and its Technicians and Representatives are not attorneys; therefore, any interpretations of laws regarding the use of this product should not be completely relied upon. It is your responsibility to determine specifically what is legally required for your operation and to therefore use this product in a manner that will comply with any such laws. After purchasing this product, a refund is not available if any laws are later changed affecting the use of this product.

Note: Informational calls (not attempting to sell goods or services) are not subject to various laws regulating Telemarketing calls. A summary of some of those laws relating to Telemarketing calls is described in the section below:

TELEMARKETERS BEWARE: If the Buyer/User intends to use any outbound dialing products (auto dialer, power dialer, predictive dialer, or fax broadcaster) for solicitation purposes (selling goods or services), there are laws or rules including, but no limited to, the following:

Do Not Call: The Buyer/User should be aware that he or she may be responsible for monthly "scrubbing" of calling lists against Federal and/or State Do Not Call Registry lists. (The Manufacturer of this product provides the Buyer/User with tools to assist in cleaning the Buyer/User's dialing lists of Do Not Call telephone numbers if required; however, the Manufacturer cannot guarantee 100% integrity or reliability of these tools.)

Cell Phones: It is not legal to call cell phones to attempt to sell goods or services with either a pre-recorded message or with live agents.

Auto Dialing (calling to leave pre-recorded messages): Effective December 1, 2008, per the US Federal Trade Commission, in the beginning of the pre-recorded message, an automated key press must be available so that consumers can opt out of the call as easily as they can from a live telemarketing call. If a message is left on an answering machine or voice mail, a toll free number must be provided for the recipient to call to opt out of any future calls. Effective September 1, 2009, per the US Federal Trade Commission, telemarketers cannot call people with a pre-recorded message to sell goods or services, unless they have prior written (or electronic) permission from the recipient of each call, regardless of whether it is answered live or by an answering machine or voice mail. Having a previous business relationship will no longer be sufficient. The following are exempt from the prior written permission requirement: informational calls, political calls, charitable solicitation calls, and healthcare related calls that are subject to HIPPA.

By using this product, the Buyer/User accepts 100% of the responsibility and liability regarding its use and will hold the Seller and the Manufacturer and its Technicians and Representatives completely harmless from any fines, penalties, litigation, expenses, or claims for any reason.
